

IMPORTANT INFORMATION ON PROVIDERS AND DOCTORS ABOUT CORESOURCE

Good news for our employees and their dependents is our renewal effective 4-1-2018 has NO changes in coverage. This is an important detail to remember when checking in with any existing doctor or provider, should they ask if there are ANY changes, you can answer this question with a “NO”.

For those employees or dependents that go to a new doctor or provider for the first time, it’s important that you have your card with you and if any questions arise about the card that you know that CoreSource is our Third-Party Administrator (TPA) and that our group plan is an employer self-insured program. If the doctor or provider have any additional questions they should contact CoreSource directly to verify your coverage at 1-800-650-5398

As a quick guide we offer the following:

1

Tell the provider that you, “have coverage through your **employer’s self-funded plan** and it is **administered by CoreSource.**”

2

Give/Send your provider a copy of your **CoreSource ID Card** (which provides copay information).
